CIRCLE MASTERS FLYING CLUB MEETING for July 2026

The June Circle Masters flying club meeting was held on July 18 2026, President Chris started the meeting at 1:00pm and it ended at 1:20pm, with nine people present.

REPORTS and ANNOUNCEMENTS:

The minutes of the last meeting were accepted.

The treasurer's report was presented. Pete moved for acceptance and Don Adriano seconded. Report was accepted.

We had 25 volunteers for KidVenture last year and 30 this year.

The last Brodak meet will be next June.

Jason checked our equipment location, and everything is okay.

OLD BUSINESS:

Jason's engine and tractor club will have its convention last weekend in August. We will fly on the 30th.

NEW BUSINESS:

Proposal:

FINANCIAL AND MISCEELANEOUS IMPACT OF MOVING THE CIRCLE MASTERS FLYING FIELD TO THE FLYING ELECTRONS FIELD

It has been one year since the Circle Masters last discussed the option of moving to an alternative flying site. The Sussex Village Board has indicated their interest in placing a pilot pad somewhere within the confines of the Village Park. So far, a final date, time, or location has not been proposed. Because of this delay, the Circle Masters must, at the very least, be prepared to move to another location. Fortunately, the club may have the option of moving five miles to the east to fly at the Flying Electrons RC Club. The Electrons Board of Directors will discuss this at their August 9, 2026 meeting.

This field is located at N61W17000 Kohler Lane in Meno Falls. This is about ½ mile north of Silver Spring. This flying site is an old landfill owned by the Village of Meno Falls. The Flying Electrons maintains the entire field as well as insuring the site through the AMA. Consequently, this cost is covered by the dues paid by the over one hundred members. Compared to the Circle Masters dues, the Electrons members may pay double the annual dues depending upon their age.

Flying Electrons dues:	Initiation Fee	\$50.00
	Annual Dues	\$75.00 Under Age 65, \$55.00 Over 65

It is proposed that the Circle Masters treasury pay the initiation fee for 11 active members and subsidize the difference between the Circle Masters dues and the Electron dues. I mention 11 members because one member, Pete, is already an Electrons member.

The first year (2027) cost to the treasury is as follows:	$11 \times \$50.00 = \550.00
	$11 \times \$45.00 = \495.00

The second year and subsequent years cost is:	$9 \times \$45.00 = \495.00
---	-------------------------------

If this move is made, the treasury will not have to pay for Sussex field rental, weed killer and AMA insurance all of which totals approximately \$400.00 per year.

The proposed control line flying area would be located on a section of the Electrons flying site that is reserved for helicopter and quad copter flying. This type of flying is rather limited to only a few members so conflict will be minimal.

There is a noise restriction of 97 dB which means mufflers are required.

Circlemasters members who wish to fly RC can do so.

Len moved to close the meeting and Mike seconded. Meeting was closed at 1:20pm.

Respectfully submitted
John Schram
Secretary

Celebrating more than **30** years of AirVenture® participation!

We have given more than **40,000** free
control line flights to children from all
50 states and **62** foreign countries!

Over 40,000 free Control Line Flights to Children from all 50 States and 62 Foreign Countries

Control Line Volunteers at the Party.

More EAA pictures are coming next month.

September 5-6, 2026	Midwest Regional Championships
September 19-20, 2026	Broken Arrow CL Stunt and Scale Contest
October 03, 2026	Club meeting
October 03-04, 2026	RINGMASTER FLY-A THON
November 07, 2026	Club meeting
December 05, 2026	Club meeting (Christmas Party ?)

Circle masters an idea for theme day for the club meetings

From: Dave Siegler (dwsiegler@gmail.com)

To: sterner6854@gmail.com; circlemasters@googlegroups.com

Date: Friday, October 31, 2025 at 07:53 PM CDT

To get a little more interest, let's suggest a theme each month. It will add a little structure. They can change or take on more. Bring any airplane but maybe lean toward the theme listed.

think about it and have a little fun with it. We can change year to year.

1. January - swap meet selling and bargains
2. February - Projects, indoor airplanes EAA flight fest
3. March - Gadgets, handles, stooges, jigs, fliteboxes, and tools
4. April - Opening Day, get the engines running for the first time, check your lines
5. May - Cox Engine Day: LM Cox's birthday is April 27. Bring Cox engines, Cox planes
6. June - Stunt day, any airshow or stunt airplanes. BiSlobs
7. July - Warbirds: Any warbird or combat plane, EAA warm-up. Nats prep.
8. August - Model Aviation Day participation, Club Picnic?
9. Sept- National Air Race Month. Bring any racing airplane scale, stunt, or competition
10. October - Ringmaster day, anything Sterling or ringmaster related
11. November: Celebrate Carl Goldberg's Birthday and any Goldberg airplane Milwaukee Maker Faire!
12. December - What are you rebuilding for next year? Rebuild Clinic, what are your plans?
