CIRCLE MASTERS FLYING CLUB MEETING MINUTES for July 2025

The July Circle Masters flying club meeting was held on July 5th 2025, at our flying field. The meeting started at 1:05pm and ended at 1:20pm, with sixteen members present.

REPORTS and ANNOUNCEMENTS:

Our EAA KidVenture control line project could use a few more volunteers.

Park reconstruction starts right after Lions Daze, and we will get a pad.

OLD BUSINESS:

none

NEW BUSINESS:

Jim Plehn is in the hospital for tests.

Mike moved to close the meeting and Len seconded. Meeting closed.

WEB BUSINESS

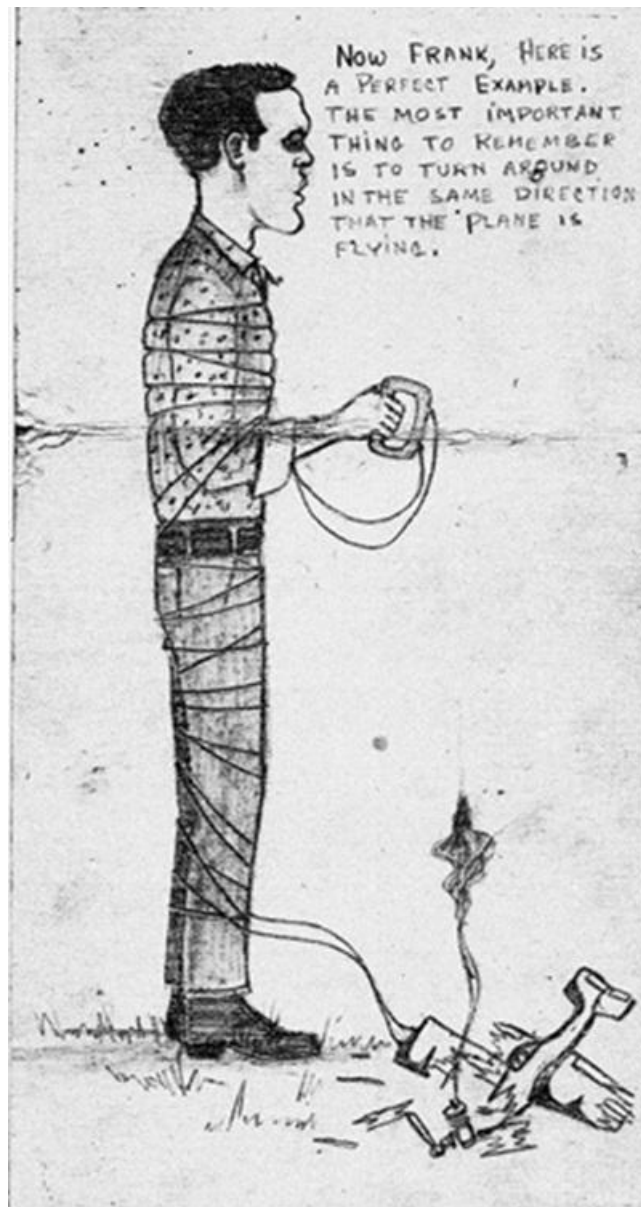

none

UPCOMING EVENTS:

The Steam Tractor show is coming up on Saturday August 23rd.

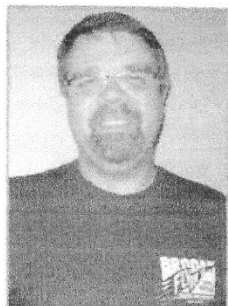

John Schram

Secretary

Can anyone guess who this is?

by Paul Taylor ~ flybywires@yahoo.com

Every summer for the past 24 years, we have driven up north to visit the in-laws in Bristol Wisconsin. My father-in-law has a farm with a very large back yard. Around 2003 I got my sons a 1/2a plane to expose them to control line as someone did with me when I was a kid. Our interest grew and so did the size of our planes. It was not long before we were flying 35 size planes. The summer of that same year we took our annual visit up north to the farm in Wisconsin. As I sat in their living room looking out over their back yard I thought it looked big enough to fly our planes on. So the following summer trip I planned to bring some planes for us to fly. A few days before we were to drive up to Wisconsin in 2004, I posted a message on an internet message board that we would be in the area. I got a reply from Joe Conley and found out that he lives not too far from my father in-laws farm. And in fact he bowled with one of the neighbors (small world). The field was mowed and Ryan and I tested out our new flying field and it just fit a set of sixty foot lines. Joe came over a few days after we arrived

and we had a wonderful day of flying. When we returned home I posted some photos on the internet message board of our day of flying in Cheezehead country. Much to my surprise I got a few more replies from other people in the area that wanted to know the next time we were in Bristol Wisconsin. Seeing how this is a yearly trip for us we had to wait until the next year.

It started with just my son Ryan, myself and Joe. Every year since it has grown.

Chris Sterner and Bob have been out every year starting in 2005, and Dave Siegler was the new kid on the block in 2006. Mike Schmitt and Dennis Vander Kuur showed up in 2007 and we had a big cook out, and Joe got us all "Cheezehead" T-shirts. This year we had Sean McEntee and his wife Sara join us.

Cheezehead 2009 had over twelve people show up with ten pilots putting up flights. Several Bi-Slob flights were put up. Chris and Ryan even went two up at a time with Bi-Slobs.

CHEEZEHEAD 2009

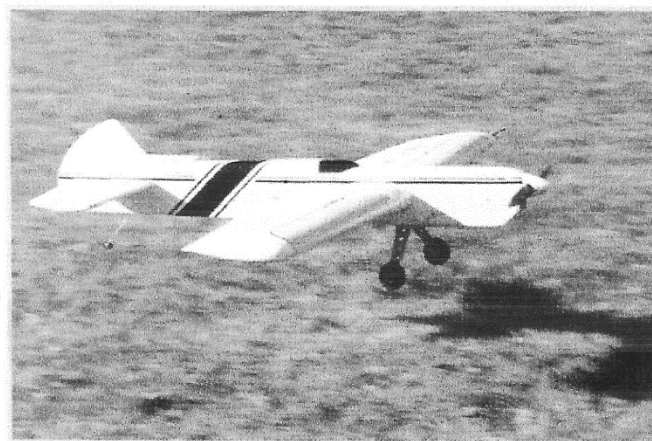

Mike Schmitt, Dave Siegler, Bob, Paul Taylor,
Ryan Taylor, Dennis Vander Kuur,
Joe Connelly, Chris Sterner, Sean McEntee
and his wife Sara.

Chris holding his new Brodak Bi-Slob.

Mike holding Dennis's Cardinal.

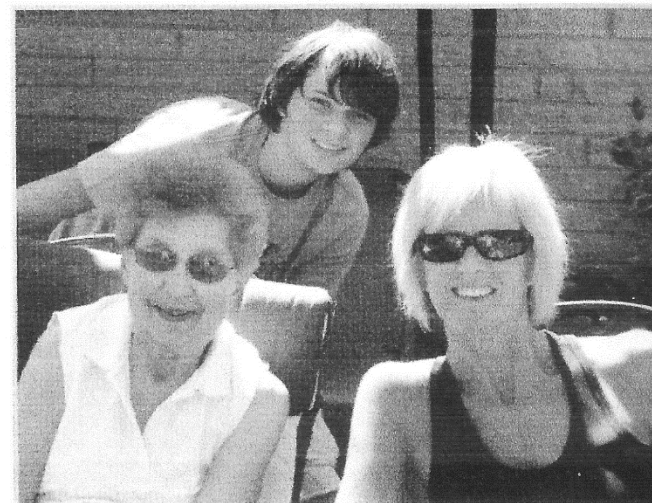

Mike landing his Encore.

Mikes's Shrike.

Sara and Sean getting ready for flight.

"Kitchen Crew".

For more photos, you can check out a slide show on www.youtube.com. Just search Cheezehead 2009. 

Mike, Dennis, and Sean showed us what the pattern really looks like. Everyone got handle time and no one went away hungry. I want to thank my father in-law Delbert for letting us take over his back yard, and my mother in-law Iris and wife Carol for helping put the food together that everyone brought. Carol even made brownies.

And just think it all started with a simple post on an internet message board.

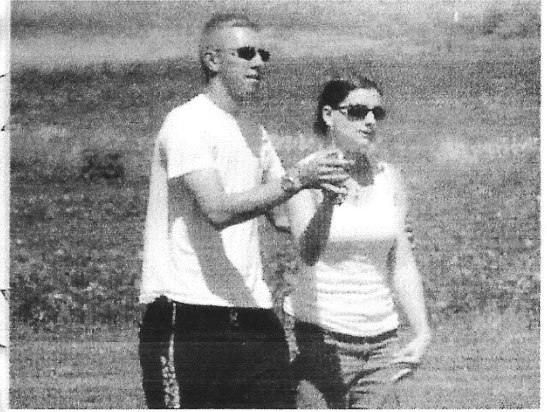

What a great way to spend a long summer lazy day on the farm. Family, Friends, Flying and Food. Can't wait until next year.
